Metroll®

BETTER SERVICE • BETTER BUILDING SOLUTIONS

Quality
ISO 9001

Why a Metroll **Colorbond** Colourfence®?

Quality Guaranteed

Manufactured using only 100% Australian-made BlueScope Colorbond® steel.

Warranty

Backed by BlueScope Steel's 10 Year Material Warranty.

Low Maintenance

No painting - simply hose clean.

Tried & Tested

Colorbond® steel is made specifically for the harsh Australian climate with over 40 years of testing and an unbeatable reputation for strength and durability.

Made Locally

Manufactured in WA with no lengthy wait times and flexibility to supply non-standard lengths.

Accessories

Includes a range of accessories that can be added post-installation. Including standard gates, post caps, lattice panels and under-fence plinths.

Colour Choice

Available in 14 Colorbond® colours making it easy to find a colour to complement your home.

Designed in Australia to Australian Standards

Privacy and security - no gaps

Before

Your complete fencing solution from Metroll

Harmony

Identical on both sides
Exclusive to Metroll

Not only does it look great, but it has been engineered to be strong, overlap cleanly and not rattle in the tracks. Harmony is the ultimate in fencing profiles that gives both neighbours the best side of the fence.

Harmony - Woodland Grey®

Trimclad

Traditional style fencing

Manufactured from Colorbond® and Zinalume® steels. Available in standard lengths in a traditional style that has stood the test of time.

Trimclad- Jasper® panels

Accessories

Personalise your fence with the Colourfence® Accessory Range. Designed for easy installation even on existing fences.

Choose from:

- Lattice Panels
- Gates
- Under-fence Plinths
- Post Caps

Dependable & Durable

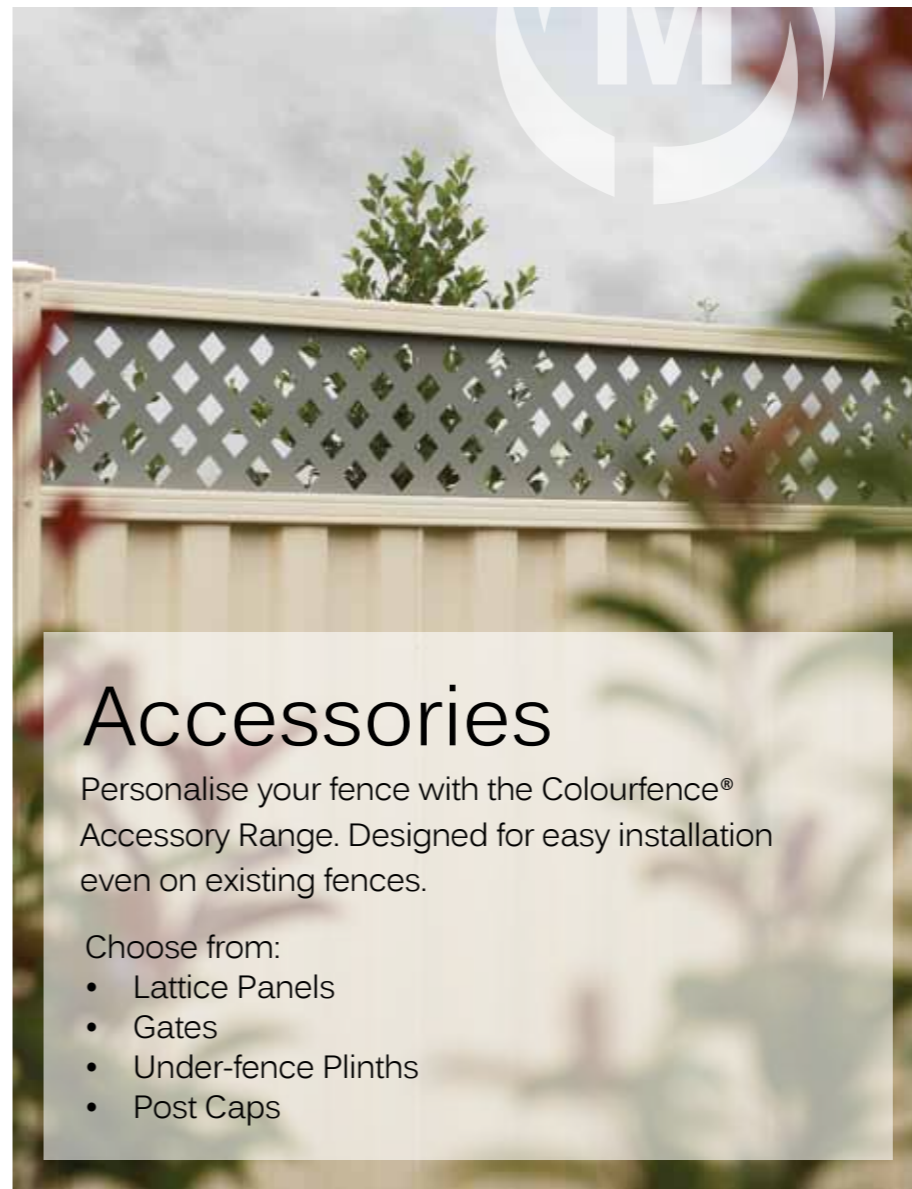

Will not warp, peel or rot and is 100% termite resistant.

High Strength Posts & Deep Rails

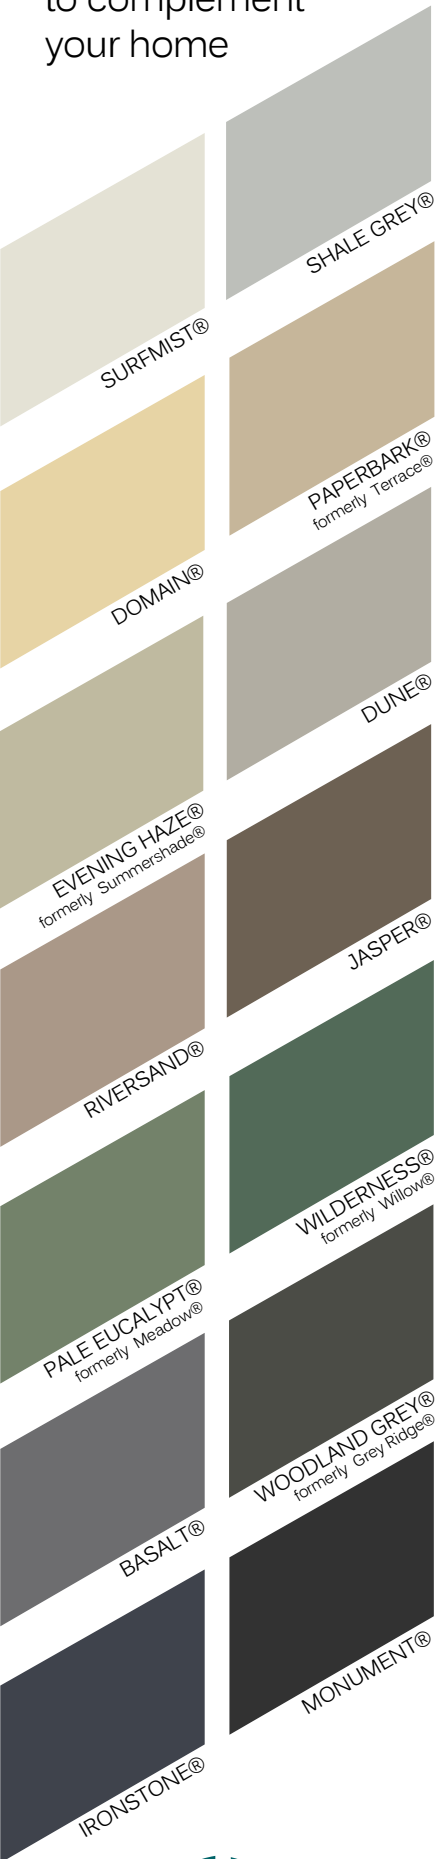

Delivers superior strength and eliminates rattle.

Exceptional Engineering

Metroll Colourfence® retains its appeal for longer than other fences.

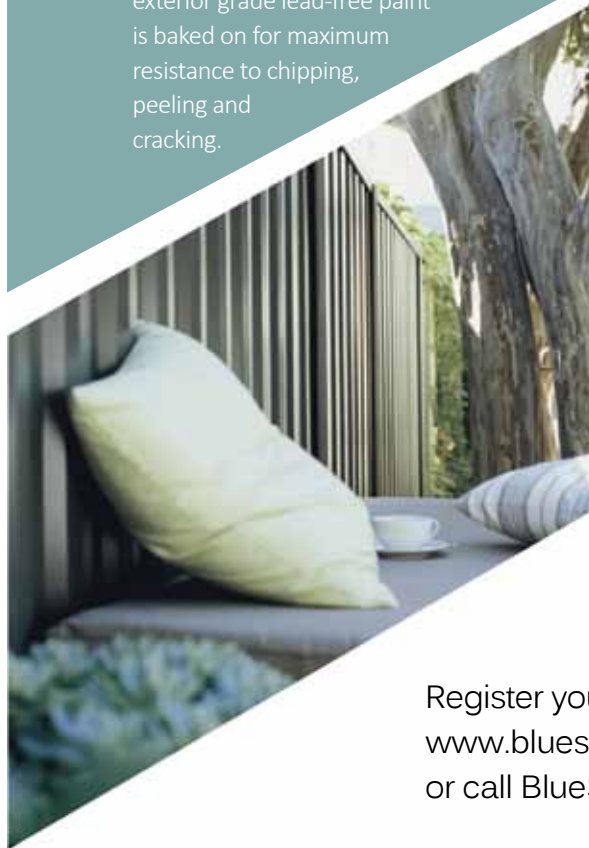

Available in 14 colours
to complement
your home

What makes your Metroll Colourfence® so tough?

An advanced 4 step process ensures longevity and durability:

- Step 1: A base of ZINCALUME® steel provides outstanding anti-corrosion performance.
- Step 2: A conversion layer is applied to enhance coating adhesion.
- Step 3: A corrosion-inhibiting primer is baked onto the surface.
- Step 4: A top coat of specially developed exterior grade lead-free paint is baked on for maximum resistance to chipping, peeling and cracking.

Warranty Information

BlueScope Steel offers a warranty of 10 years* from the date of installation against corrosion to perforation by weathering in the natural elements. BlueScope Steel also warrants that the paint system will not flake or peel due to natural weathering for 10 years*.

*Warranty terms and conditions apply. Warranties are not available for all products and applications. The duration and terms and conditions of available warranties vary according to product use and application.
